A TEMPERANCE CAMPAIGN will be gened on Thursday evening by WM. H. VAN WAGNER (the Poughkeepsie Blacksmith,") who pitches his big test in a vacant lot between Fifth and Sixth-avenues and Binth and Tenth-streets, with entrances from both

Temperance Cause, in various parts of the country, and has been warmly commended by the Press of our own and most of the Eastern States. His tent is capacious, with comfortable seats, and ladies may attend without lear of tumult or annoyance. Friends of Temperance let us all welcome his opening in our City by a general dance at the big tent to-morrow evening.

The General Conference of the Afri-M E. Church has been in session in this City laring the last eleven days, and is progressing rapidly h is business. Two of its members have been elected to strengthen the Episcopacy, viz: Rev. Willis Nazery lohis, and Rev. Daniel A. Payne, of Baltimore Md. Mr. Psyne, we are informed, is a native of Charlestoo, South Carolina. An Editor of The Christian Herald, Pusburgh, and General Book Steward, are officers yet to be elected. The two Bishops elect are to be con cruted next Thursday afternoon, May 13, at 4 o'clock, in Eathel, Second-st, between Avenues B and C.

TEMPERANCE ANNIVERSARY .- The Seccod Annual and Seventh Quarterly Meeting of the National Temperance Society will be held at Metropolitan Hall this (Wednesday) evening at 7½ o'clock. Addressee by Rev. William M. Daily, of Indiana, late Chaplain to Congress, Rev. Theodore L. Cuyler, of Trenton, and Rev. J. B. Wakely, of Newark. Music by Shelton's Cornet Band.

THE LATE ISAAC T. HOPPER.-The funeral of this lamented philanthropist will take place today at 4 P. M., at the Tabernacle, under the direction of the Prison Association. Judge Edmonds will deliver an address, and other gentlemen of the Association will participate in the services. We have before us the correspondence between the Executive Committee and Mr. Hopper, last February, when Mr. H. resigned his post as Agent for the relief of Discharged Convicts.— The letters are full of affection and charity. At a meet. ing of the Association held on Monday last, resolutions of condolence, &c., were passed, of which we quote the

following:

"That in the death of Isaac T. Hopper the community is called to part with a citizen of transcendent worth and excellence: the prisoner, with an unwearied and reliaried friend; the poor and the homeless, with a bother and a protector; the church of Christ, with a brother whose works ever bore unfailing testimony to the faith; and the world at large, with a philanthropist of the purest and most uncompromising integrity, whose good deeds were circumscribed by no sect, party, condition or clime."

[The prisoner situled to his being Tressurer of the Vigilance Committee of the Auti-Slavery Society, and hined in regard to that, but the subject was not pressed by the District Attorney.] He followed, as I understood, at one time, the business of silver-case making; he was afterward in the flour and feed business, in the retail way, and in the manufacture of chocolate.

Charler Starr, Jr., sworn—Have known prisoner well for 20 years; semerally his character has been unexceptionable; latterly there were some exceptions, but they had relation to his pecuniary habitities.

Mr. Whiting, sworn—Am a merchant; have known Mr. Johnston for 20 years; he was an officer in the church in Spring-st; as far stever I heard he sustained a high character. The case was then summed up by Mr. Allen, for defense, who contended that nothing had been shown to identify Mr. J. with a knowledge that the coin was not good, and he contended that where there is doubt the benefit of the doubt is to be given to the accused, &c. He alluded to the high reyultion which Mr. J. had sustained, and the improbability of his throwing that character away. &c.

The District Attorney, in summing up in reply, laid considerable stress on the query as to what Mr. J. could have done with the different lost of silver foil he had bought, or what could have been his object in buying it, and the case with which he might have explained, could he have, done so, &c. In regard to the law, he said, the Supreme Court. in 10 Peters, 0.22, held that passing or making of parts of a Spanish dellar &c., come within the rule, and I will not press as to that.

ARREST ON CHARGE OF PERJURY AND CONSPIRACY.—On Monday we noticed in a short paragraph the arrest of Dr. Jethro W. Woodward, charged by Mrs. Phobe Falmer, wife of Dr. Walter C. Palmer, of No. 54 Rivington-st., with conspiracy to make a false charge against her, with the view of causing her arrest on the felonious accusation of breaking open and reading a sealed letter directed to Dr. Woodward; and also the arrest of John Haskin Shearman, of No. 285 East Tenth-st., who is charged by the same lady with willful and corrupt perjury.

As Mrs. Palmer is an authoress of several religious works of merit and extensive circulation, and is represented to be a lady of much benevolence, we give the facts more in detail, as they are much more interesting than at first supposed. It appears that Dr. Woodward, who was a local preacher of the Methodist persuasion, as well as a physiciam, formerly lived in West Chester county, and more than a year ago formed the acquaintance of Dr. Palmer, and being poor, solicited aid from the latter who finally took him into his employ as assistant in the medical profession and told him to make his house a home. He had been energed with Dr. Palmer but a short time, when, according to the affidiavit of Mrs. Palmer, the circulated defamatory and untruthful reports against Mr. and Mrs. Palmer and their family, tending greatly to their injury among those with whom they were not well acquainted, and also to the dimmishing of the practice of Dr. Palmer as a physician.

When this became known Dr. Mrs. Palmer in her affidavit says, greatly exasperated Woodward, who subsequently exhibited toward the family the most excessive malimity.—After Woodward's discharge, Sherman, who had been in the habit of attending religious meetings at the house of Dr. Palmer, with whom he had been on friendly terms, became increased against the family of the Doctor, and showed his malice on several occasions, in circulating defamatory report respecting the members of it. For these slanderons attack Shearman, who was also a m

Conference, and by that body was found guilty and dismissod from the Church.

More offended than ever by this, while the trial was pending. Weedward on the lett of March last, went before the U.S. Commissioner, Bridgham, and made a complaint grainst Mrs. Palmer, whom he charged with having, on the 5th Dec. last, and also before and after that time, embezaled from the Post-Office, or from letter carriers, letters directed to him, for the purpose of obstructing his carrespondence, and of prying into his business and secrets. Finding, however, that he could not cause the arrest of Mrs. Palmer on a process from the U.S. Court, he went before Justice Trapson, accompanied by Sherman, who made oath that the letter alleged to have been broken open, was a City letter, and had been delivered at the house of Dr. Palmer by some person in the City. This phase of the case placed the matter within the jurisdiction of that Magistrate, who issued a warrant for the arrest of Mrs. Palmer, who was arrested for the complaint.

rant for the arrest of Mrs. Paimer, who was arrested for the complaint.

The case recently came up for examination, when Chauncey Shafer, Esq., appeared as counsel for Mrs. Palmer, and the charge was shown to be realicious and without foundation, and was accordingly dismissed by the magterrate. On the following day, Mrs. Palmer, her husband, Cornelius B. Ulshart, (the latter of whom had testified in the case) and other witnesses appeared before Justico Oshorn and made affidavits similar in character to those made by Mrs. Palmer, as given above. On these complaints Shearman and Dr. Woodward were arrested, and are now in custody. It is stated that they are criminating and recriminating each other in regard to their difficulties.

in favor of letting the lease go at \$3,500, and spoke upon the subject.

Ald. Tweed thought the Board should adopt the report of the Cammittee. They had considered the interests of the city in making it. It was the custom for parties to send in proposals when such matters were pending, and othering large houses, but it was helice to let the forry in question for \$5,500 to a party the city could depend upon for good boats, good arrangements and the establishment of a good ferry. The parties offering large amounts for the lease could not, be telled upon, for they could not afford, after paying such heavy rest, to establish a ferry to suit the people, and put on the proper kind of boats.

Ald. Tieman said that this ferry would not be a poor man's ferry but a ferry for rich men and to acc smodule the parties owning the lead works and flour mills on the Brookyn side near the proposed termination. Ald. Tieman thought the number of years (15) being the term of the lease was too long a period, and moved to amend, by making the term of years instead, which was lost. The report was then allowed

TUESDAY, May 11-P. M.

The Stock market presents no change of feature. The transactions are not heavy. The changes are few. The market is strong, without buoyancy. Speculation is absent, but the prospects are still animating. Government Stocks were firm, without change. The most active demand was for Eric Convertible Bonds of 1862, \$71,000 of which were sold at 98, sixty days, buyer's option, \$10,000 at 977%. Harlem sold largely for the opening, but at lower prices. Canton was inactive in the morning, but sold at an advance in the afternoon. Erie Stock, which was heavy at the First Board, became buoyant at the Second. Albany and Schenectady improved 1 P cent. Nicaragua declined 1 \$\psi\$ cent. Reading was active at an advance of in the afternoon on the morning's prices. New-Jersey

The Stock of the Cleveland, Columbus Cleveland at 105, reserving the portion of the dividend up to the time of sale, making the sale equal to 108 or 10812. This stock paid a half year's dividend of seven per cent, on the let of February last, and will pay another dividend on the 1st August of from six to seven per cent., probably more.

In Freights there has been more doing to day. For Liverpool, 4,000 bush. Grain were taken at 4d.; 10,000 bbls. Plour, 15 & 16d.; 1,600 bbls. Resin, 15d.; 1,100 bales Cotton, 3-16 a 7-32d, and heavy goods at previous rates. Nothing offered for other ports.

The shipments of Flour within the last four days have been 50,000 barrels, in part taken from first hands.

The demand for Money is comparatively light. The supply is superabundant, and loans are offering freely at 4 ? cent. The brokers are paying off their 5 P cent. loans and borrowing at 4. The best short-dated paper sells readily at 4 \$\psi\$ cent. The amount of money on deposit with the Banks is accumu-lating, and both Banks and private capitalists are at a loss to use their funds, and large balances are consequently lying idle. In the South, there is a scarcity of money. A shipment of coin southward was made today to the extent of \$100,000, taken from the Bank of ommerce, and more is likely to follow.

The Foreign Exchange market opened early in the morning at higher rates. 1104 was asked by the leading drawers, but the sales were very triding. Some larger amounts were sold at 1101s, but the bulk of an active market was 110, showing, however, more firmness than yesterday.

The jobbers and redistributing dealers

are doing an active business. The Western, Northern and near-by trade occupies them thoroughly, and prices have generally assumed more firmness. Domestic Cot-ton goods are advancing, excepting Prints. The export demand continues brisk. Unbleached Sheetings and Shirtings are very steady at uniform prices, but with an upward tendency. Whether it is owing to the gradual appreciation of the raw material or not, manufactured Cottons are gradually stiffening in price. Heavy Sheetings are selling, to arrive, at 6% c. 27c. Bleached goods are in moderate request, and prices firm, especially of the medium and better qualities. Drills are still in quick demand, and arrivals are taken out of the market at once. Browns sell at 71/20714c. Osnaburghs are quiet, with a light supply. Frices are steady; Denims are quiet; but firm at a slight advance, there being ne stock in first hands. Some sales have been made, to arrive, at 71 c. Stripes and Ticks are but moderately active. Printing Cloths show considerable improvement. The supply has been reduced to the level of the demand, which is improving, and prices have, consequently, an upward tendency. Prints are dull. The best grades re not in overstock and are firm; lower qualities are heavy in price. The market for Ginghams rules steady and active at the uniform price of 104c. Lawns are brisk of sale at 10c. @1114c. for common domestic, and 1414c. for Portsmouth. Delaines are quiet. The manufactories are engaged on their Fall styles. @10ths are in limited request, at unchanged prices. Satinets continue active at full prices, and the stock is running low. Fancy styles of Cassimeres are brisk; but Fall Goods are yet in only moderate demand. Jeans are rather brisk, and prices seem to improve. Tweeds are dull and heavy, with a large stock. The auction sales are drawing to a close. All the large ones of va-ried assortment are over. The stock left of French and Continental goods in importers' hands, is very much re-duced. Mesars. Foster & Livingston sold to-day, a lot of printed French goods, just imported by Cottinet &

Co. The goods were in season and were timely ofered. The large catalogue of 2,000 pieces were sold at improved prices, and distributed among the trade generally. All staple goods are now held with more armness, and jobbers find it difficult to replace their stocks of favorite and desirable styles at old prices.

The imports of French goods are exceedingly light. The vessels arriving do not bring out full cargoes. The demand for British goods is moderate, but steady. Staple goods are firm, but the remaining stocks of spring styles are offering at irregular rates. Messrs E. Higgin & Co., of Liverpcol, under date of the 21st April, farnish the following comparative exports from Great Britain to the following comparative exports from Great Britain to the United States from the commencement of the season to 13th April:

The receipts in the Philadelphia Mint of Gold Dust since the 1st of May are \$2,150,000. In all April they were \$3,000,000. The first ten days' receipts of this month are greater than the whole of last. The coming arrival will be for a very large amount, between it is said, three and four millions, so that this month's receipts will probably double last months.

The following is a statement of the de-

The tolls received on all the New-York State Canals in the month of April in each of the years

The Albany Atlas says: There are several reasons for this diminution. In the first place, the Canal opened five days later this year. Lake Erie opened 1st April last year, was not open before the first of May this year. The late opening of the Lake, which kept boats at Buffild, and the breaks at Medina and Albion, prevented boats from taking return cargoes from tide water before the first of May, thus diminishing the toils at both ends of the Erie Canal. In addition to these reasons, the railroads, having been freed from toil, took a much larger amount of freight than usual.

The Syracuse Star states that Messrs. James and John Crouse, of Madison County, are about to remove to Syracuse and open a new Banking Institution. This will give Syracuse City eight Banks.

The Secretary of the Treasury in Pennsylvenia, has issued notices inviting proposals for a toan of \$850,000, for the North Branch Canal, at a rate not to exceed 6 P cent, annual interest, payable half yearly, be for one, five or ten thousand dollars, for which there will be certificates to correspond.

A Minority Report lately presented to the Senate of Maryland by Mr. Kunkle, one of the members of the Committee on Finance, who favors a reduction of the State taxes, gives the subjoined details respecting the public debt of Maryland :

COTTON is less active to-day, but holders are very firm at the recent advance. 600 bales changed hands, making for the last three days \$1,000 bales at an advance for that period of \$1.090.

FLOUR AND MEAL—Our market for Western and State Flour is rather lower, under the indisence of larger receipts and only a mederate export demand. There is more doing in the inferior grades for export at steady prices. We notice sundry sales of old State and lots out of order, at \$4.00 \$4.00. The better grades are less active, the trade baying only for their present wants. Canadian is more abundant, and the demand is fair for export.
